

JOIN PLANET SUPER LEAGUE AND TAKE YOUR FOOTBALL CLUB TO THE TOP

Thought your football club had no chance of winning a trophy this season? Think again. Planet Super League is kicking off with our PSL2 tournament on the 27th March, with twenty-four clubs competing for a shot at the title.

Your football club needs you!

Each week your club will play against a rival. Score goals by completing planet-saving football activities like these, and loads more! By the end of the eleven weeks your club could be the winner of the PSL2 trophy.

LEG POWER 5KM

Score goals by getting the team out and about under their own steam with just tasty snacks for fuel.

RADIATOR DRIBBLE

It's good game tactics to check your radiators for air bubbles and get your home's heating system match-fit.

VEGGIE KEEPIE-UPPIE

Work on your speed and agility by going meat free for the day and piling up the veggies for star player energy levels.

Ready to get match fit?

It's totally free to take part in PSL2. You'll have fun learning how to live more sustainably, practise football skills, compete for prizes and get your team up the league.

I love how PSL encourages me to be more environmentally friendly without wagging a finger at me... We are having fun as a family and doing something good at the same time.
